MEET THE TEAM!

Please allow me to introduce our team to you:

Becky is a job coach and has 7 years experience as part of her 18 years with the agency. She knows most of our students very well as she also works the respite program.

Cinthea is a job coach and also knows the students well as she has been with the agency for nearly 18 years.

I am the new Coordinator of the program. I have a background in education as a dual certified teacher in elementary education/special education k-12. I also have a background in program coordination and look forward to getting to know all of the students!

Jill Hardy

In this era of Covid, we want to assure you that we have protocols in place as dictated by Monroe County CDC guidelines. There are additional policies in place at some of the individual workplace sites which we follow as well.

We are continuously working to add community partner work sites for our students and currently have 11 in place in which students are able to experience a work environment.

We strive to place students at sites where their abilities and interests can be maximized but also will rotate the schedule during the year to allow for varied experiences and exposure to different activities to build skills.
